

## **WHIZ COMMERCE CLOUD Guarantee**

We transform your e-commerce vision into a mobile app in just 8 weeks. Guaranteed.

---

Adopting new technologies in the dynamic world of e-commerce can be a gamble. Demonstrating immediate business value is crucial for credibility, yet traditional app development is often a lengthy and resource-intensive process.

The WHIZ COMMERCE CLOUD Guarantee mitigates this risk by promising to launch your mobile commerce application in a mere 8 weeks. This guarantee is backed by our expert team, employing a proven methodology coupled with the innovative features of the WHIZ COMMERCE CLOUD platform. This approach ensures your e-commerce app is developed swiftly, efficiently, and effectively, showcasing immediate value and a positive return on investment.

**The WHIZ COMMERCE CLOUD Guarantee is your key to success in the digital transformation journey of your e-commerce business.**

- Expert team with business and technical acumen
- Best-practice methodologies tailored for e-commerce
- Rapid delivery of tangible value

### **Fast to build**

- An 8-week focused development timeline for your app
- Clearly defined guidelines to ensure delivery success
- A skilled team committed to rapid and effective delivery
- Comprehensive use of WHIZ COMMERCE CLOUD features

- Agile and collaborative app design process
- Best practices in project implementation and deployment
- Preparation and planning for future app enhancements

This exclusive guarantee is available to each WHIZ COMMERCE CLOUD customer who commits to deploying in the cloud, subscribes to our services with a minimum contract value, fully utilizes standard WHIZ COMMERCE CLOUD features, and aligns with our project delivery methodology.

### **Weeks 1–2 | Sprint 0**

The project kick-off stage, where we set clear goals, establish the project framework, and lay the foundational strategy.

- Strategic solution design
- Release planning and roadmap
- Team formation and role clarification
- Business value identification
- Project backlog creation

### **Weeks 3–6 | Build Sprints**

During these weeks, we engage in iterative development sprints, incorporating user feedback to focus sharply on project goals.

- Detailed sprint planning
- Proactive risk management
- Prototyping and design iterations
- Continuous development and testing
- Sprint reviews and acceptance

### **Weeks 7–8 | Release Sprint**

In the final phase, we finalize all aspects, ensuring your app is ready for a successful launch.

- Comprehensive final testing
- Final deployment preparations
- Celebrating the project completion and planning next steps

The WHIZ COMMERCE CLOUD platform is engineered to revolutionize mobile commerce, offering seamless integration and optimization of end-to-end processes, with features designed for the modern e-commerce landscape:

● **Unified Data Integration**

Our platform includes a sophisticated data fabric that unifies data across various systems, enabling you to build powerful, data-driven applications swiftly and efficiently.

● **Advanced Process Automation**

Automate any aspect of your e-commerce operations with our integrated workflow solutions. This includes Robotic Process Automation (RPA), AI-driven automation, Intelligent Document Processing (IDP), and seamless API integrations.

● **Total Experience Design**

Engage both internal and external users with an immersive experience across web and mobile platforms. Our focus is on creating intuitive, user-friendly interfaces that enhance customer interaction and satisfaction.

● **Process Mining Capabilities:**

Discover and address inefficiencies in your processes. Our process mining tools help you optimize business outcomes by providing deep insights into your operational workflows.

● **Embedded Artificial Intelligence:**

AI is at the heart of WHIZ COMMERCE CLOUD, accelerating development processes, enhancing content management, and facilitating faster, more accurate decision-making.

## **Continued Success**

Our commitment doesn't end with the initial app launch. WHIZ COMMERCE CLOUD offers ongoing support and advisory services to aid your continued digital growth. This includes access to our expert team for app enhancements, educational resources, and a community platform for shared learning and innovation.
